## Dylan Pereira (MLD)

Certified Massage and Manual  
Lymphatic Drainage Therapist

Hello, my name is Dylan Pereira, and I am a dedicated Certified Massage and Manual Lymphatic Drainage (MLD) Therapist with over 10 years of experience in the field.

Prior to moving back to my hometown of Visalia, I had been working in San Diego as a sought-after practitioner seeing a wide variety of patients, including professional athletes. I am excited to bring my skillset back to my hometown and work in harmony with the dedicated health professionals in the area.

Massage therapy is a multi-modal clinically oriented healthcare option that has been shown to improve quality of life for patients with a variety of conditions.

It is my intention to use massage therapy to support each patients' health care plan and to provide quality care for all patients. I work with a variety of conditions and create a customized, outcome-driven treatment plan for each patient to address their health needs.

With my warm and compassionate demeanor, I create a comfortable and rejuvenating experience for those who seek my experience.

Please contact me if you would like to discuss any of this information in depth, or if you are looking for a professional dedicated Certified Massage and/or MLD Therapist.
